

CIRCULAR FOR CAREER COUNSELING SESSIONS

Dear Parents
Namaste

Let us acknowledge the fact that our child would be finishing his Class X in the near future and is at a very crucial junction of life when it comes to taking turns on a career path.

From the perspective of an educationist, the school realizes the long term responsibility of placing the child in an admirable and comfortable position, decades down the time. In the light of this long term vision, the career decision and its mapping becomes an important aspect of development at this junction.

As a result, we take pleasure in informing you that we have arranged for the complete mapping of children in Class X and XI for taking Career and allied decisions. The process involves the following steps.

STEP 1 : Address to the students of Class X and XI highlighting the importance of making the correct career choice . This address was given by Mr. Sameer Golwelkar on Friday 06 October 2017.

STEP 2 – Psychometric Testing of students (who opt for it) on Friday 13 October 2017 . This would include testing Intelligence, Aptitudes, Motor movements, Interests patterns, Adjustments and personality profile. It takes roughly four hours for the complete testing process.

STEP 3 – Individual counseling session with each **child and his parents** to address all issues related to career mapping, development and education as a whole. The parents have to attend the given time slot for 30 min. with their child for a **PERSONAL** counseling session in the school with the counselors. This would be planned following the testing session. Pl re-confirm your individual time slot from your child. Parents would be handed over complete report along with the career map and suggestions related to potential pitfalls and scopes for development.

STEP 4 – Follow up sessions from time to time for follow up on outcome of the counseling sessions and appraisal on occupational data related to Universities and related issues. Circular would be sent periodically to the parents and willing parents would be offered an opportunity for personal interactions with the counselors in the school premises.

This is a very scientific and exhaustive process which the school opts for every year for the students to be conducted by the professional counselors of “Options Guidance and Counseling” personally. Dr. Sameer Golwelkar and Dr. Soniya Golwelkar are qualified, certified, trained and practicing Counselors, Psychologists, Philosophers and Psychotherapists. They have been practicing for last 19 years and have a rich experience of counseling students. A short introduction is attached for your reference.

The above facility is available for our children at a subsidized charge of Rs.5500/- (as against Rs 9000/- when conducted at the center). Parents interested in availing this service are requested to deposit by way of Cheque payable in the name of “Options Guidance and Counseling” an amount of Rs.5500/- latest by Wednesday 11 October 2017 in the school.

Kind regards
Shishukunj

A brief introduction to “Options Guidance and Counseling”
